All Technopole students must take the 3 French for Engineering 1-credit sequence of courses (3101, 3102, 3103) ideally during three consecutive semesters, beginning in the Fall of their sophomore year. The three units count for 1 course in the major.

Up to 12 FREN credits taken abroad can replace any 3000-level course. Typically, students will take 12-15 credits abroad, 12 credits for the Major and 3 to 6 credits in relateds. Students must take a total of 12 credits of relateds while abroad (in a combination of ENG and broad humanities and even science-related classes). Related courses are in programs not in French but related to the program in some way. They should be approved by the advisor.
